

Eco Bricks

FIRED CLAY BRICKS

SALIENT FEATURES

- High surface quality
- High dimensional accuracy
- Reduced mortar consumption in construction
- Low breakage
- High compressive strength
- Environmental friendly production: low energy input, no usage of wood as fuel
- Production capacity 20,000 bricks/day

TECHNICAL FEATURES

- Size A: 230x110x70mm
- Size B: 230x190x70mm
- Bulk density: 1.6kg/dm³
- Compressive strength: approx. 5N/mm²
